Heath Williams

Occupational health osteopath

Melbourne, Victoria

Heath is an experienced occupational health osteopath and has been working in this field since 2004. Heath is passionate about educating and helping corporate clients to prevent and manage musculoskeletal injuries in the workplace.

He has a range of experiences that include:

- Director and osteopath of Principle Four Osteopathy, one of Melbourne CBD leading osteopathy clinics.
- Lecturer at Victoria University and Southern Cross University
- Independent medical examiner for Worksafe Victoria and examiner for the Australian osteopathic accreditation council

Heath enjoys spending time with his wife and 2 young children, playing tennis and golf and travelling.

CWHA Testimonials

"Awesome Manual Handling Training session conducted at our workshop! The training was customised to suit our business and contained a good mix of theory/practical elements. Highly recommended. Thanks again."

"The inner-city business for whom I work as Office Administrator recently engaged CWHA to deliver "Sit Safe" training seminars and conduct ergonomic assessments for all our staff. It was a very worthwhile undertaking. The information imparted in the seminars was interesting and applicable. The individual desk checks were thorough and valuable, as was the subsequent comprehensive report."

"Reps of Corporate Work Health are great at customer service and their responses are prompt and quick. Very accommodating to clients needs and always going above and beyond to find a solution for me and to find a date and time of consultation. Highly recommend them to use for your Ergonomic work health assessments including work from home assessments."
