Nicholas Cannon

Osteopath and WHS Consultant

Geelong, Victoria

Nick is the Principal Osteopath at Oceanside Osteo. He has over 5 years of clinical experience and has been working around the Geelong and Bellarine region since 2016 in private clinical practice and occupational health consulting.

Nick has undertaken a range of post graduate training certifications to enhance his skills in occupational health. Nick commonly undertakes office workstation and vehicle ergonomic risk assessments and training, manual handling training and health and wellbeing seminars.

Away from work, Nick enjoys spending time with his family and hiking, playing golf and hitting the gym.

CWHA Testimonials

“Awesome Manual Handling Training session conducted at our workshop! The training was customised to suit our business and contained a good mix of theory/practical elements. Highly recommended. Thanks again.”

“The inner-city business for whom I work as Office Administrator recently engaged CWHA to deliver “Sit Safe” training seminars and conduct ergonomic assessments for all our staff. It was a very worthwhile undertaking. The information imparted in the seminars was interesting and applicable. The individual desk checks were thorough and valuable, as was the subsequent comprehensive report.”

“Reps of Corporate Work Health are great at customer service and their responses are prompt and quick. Very accommodating to clients needs and always going above and beyond to find a solution for me and to find a date and time of consultation. Highly recommend them to use for your Ergonomic work health assessments including work from home assessments.”

NICHOLAS CANNON

Osteopath and WHS
Consultant
