## Maree Webber

Physiotherapist

Hobart Tasmania

Maree is a Specialist Occupational Health Physiotherapist (as awarded by the Australian College of Physiotherapists 2011), has a Masters Degree in Ergonomics (UQ), and is a sole practitioner providing Occupational Rehabilitation Services within Tasmania.

Maree has worked as a Clinical Physiotherapist for 25 years and has been involved in the Occupational Rehabilitation field for over 20 years providing Ergonomic Consultancy services (including Worksite assessments, Injury Prevention, Education and Injury Management services) to a wide range of clients across all sectors.

Maree is an accredited Workplace Rehabilitation Provider in the Tasmanian jurisdiction.

## CWHA Testimonials

“Awesome Manual Handling Training session conducted at our workshop! The training was customised to suit our business and contained a good mix of theory/practical elements. Highly recommended. Thanks again.”

“The inner-city business for whom I work as Office Administrator recently engaged CWHA to deliver “Sit Safe” training seminars and conduct ergonomic assessments for all our staff. It was a very worthwhile undertaking. The information imparted in the seminars was interesting and applicable. The individual desk checks were thorough and valuable, as was the subsequent comprehensive report.”

“Reps of Corporate Work Health are great at customer service and their responses are prompt and quick. Very accommodating to clients needs and always going above and beyond to find a solution for me and to find a date and time of consultation. Highly recommend them to use for your Ergonomic work health assessments including work from home assessments.”
