Tom McKenna

Melbourne
Victoria

Tom has been a registered Osteopath since the start of 2020. He began his journey into the occupational health field in 2018, working for specialist equipment provider Backcare & Seating for several years. Tom currently works out of Beaconsfield Sports & Spinal as a passionate Osteopath.

Tom also works as an ergonomic consultant for Corporate Work Health Australia in the areas of ergonomics and health and wellbeing.

CWHA Testimonials

“Awesome Manual Handling Training session conducted at our workshop! The training was customised to suit our business and contained a good mix of theory/practical elements. Highly recommended. Thanks again.”

“The inner-city business for whom I work as Office Administrator recently engaged CWHA to deliver “Sit Safe” training seminars and conduct ergonomic assessments for all our staff. It was a very worthwhile undertaking. The information imparted in the seminars was interesting and applicable. The individual desk checks were thorough and valuable, as was the subsequent comprehensive report.”

“Reps of Corporate Work Health are great at customer service and their responses are prompt and quick. Very accommodating to clients needs and always going above and beyond to find a solution for me and to find a date and time of consultation. Highly recommend them to use for your Ergonomic work health assessments including work from home assessments.”
