Sallyanne Eaton

Ballarat
Victoria

Sallyanne is a registered osteopath who works in private clinical practice in Ballarat as well as consults in occupational health.

Sally is a TPI (Titleist Performance Institute) certified golf assessor. Previously Sallyanne has worked as a football trainer, a toxicology laboratory assistant and has been a volunteer with St. John Ambulance.

CWHA Testimonials

“Awesome Manual Handling Training session conducted at our workshop! The training was customised to suit our business and contained a good mix of theory/practical elements. Highly recommended. Thanks again.”

“The inner-city business for whom I work as Office Administrator recently engaged CWHA to deliver “Sit Safe” training seminars and conduct ergonomic assessments for all our staff. It was a very worthwhile undertaking. The information imparted in the seminars was interesting and applicable. The individual desk checks were thorough and valuable, as was the subsequent comprehensive report.”

“Reps of Corporate Work Health are great at customer service and their responses are prompt and quick. Very accommodating to clients needs and always going above and beyond to find a solution for me and to find a date and time of consultation. Highly recommend them to use for your Ergonomic work health assessments including work from home assessments.”
